

What Our Parents Have to Say

“Our family’s experience so far has just been outstanding. Everyone has been so inviting, loving and caring. We couldn't be happier with our decision to choose Central Catholic as our home.”

-Jason and Sheila Stephens

“I love Central Catholic because it demands that my children integrate Catholic thought broadly across the curriculum. Central Catholic allows the faith perspective to break down the walls put up between academic subjects and the most pressing concerns of the human spirit.”

-Joe and Lauri Blaney

“We decided sending the boys to the Catholic Schools was the proper choice. We felt it was our obligation as parents to provide our boys with the best education, regardless of the financial & time sacrifices we needed to make. We are very proud of the young men our boys have become and Central Catholic had a huge hand in that. We would do it all over again. We have met numerous friends at CCHS & are very pleased with the education our boys received.”

-Greg and Marcia Heaton

“Four years ago we chose to send our daughter to Central Catholic primarily because of its strong catholic identity. Prayer and authentic Catholic teachings are present in both classes and extracurricular activities making the school a wonderful faith-filled environment. When combined with challenging academics – teachers really expect a lot from the students – and a genuine sense of family there is no better place to send your child than Central Catholic.”

-Rob and Kathy Woyak

“Central Catholic is "family to us ". We always feel welcomed whenever we are at a school or sporting event. The students, faculty and staff are the warmest and kindest individuals I know. I volunteer in the chapel, football games, and the lunch room because I love to be around all of the students and staff. Even when my oldest graduates, and it is a couple of years before my youngest will begin high school, I will continue to volunteer at the high school, I cannot imagine not being a part of this great family that family is so fortunate to be a part of.”

-Monica Thomas

“One of the things we love best about CCHS is that this high school can go toe to toe with any academic institution anywhere. Time and time again we shine academically, athletically, and spiritually. The caliber of teachers is fantastic and many of the teachers go above and beyond to educate not only the mind, but as we have heard before, the heart and soul of their students. What other school can brag about that?!?”

-Bob and Xandra Lee

What Our Parents Have to Say *(continued)*

“We are so happy that we chose Central Catholic for our son's high school education. The teachers, staff and students have welcomed us and made the transition from junior high so easy and smooth. I would tell anyone considering Central Catholic to spend a day with any of the students and you will see why the choice is obvious!”

-Brendan & Martha Greil

“One of my favorite moments at CCHS is when the whole faculty, student body, and parents all come together in the center of the gym after homecoming pep rally---to PRAY. One family, one faith.”

-James and Jill Hayes

“We could not be happier with our decision to send our sons to Central Catholic! We had to decide between a local high school five minutes from home or CCHS, 35 minutes from home. After our visit to meet CCHS faculty and staff, our decision was made. We knew our boys would be in great hands both educationally and spiritually. CCHS has made the sacrifices we make in regard to time and travel worth every second of it. CCHS is a top notch school that is also a tight-knit family! We could not ask for more!”

-Joe and Laurie Murphy

“Central Catholic High School provides a family-like, safe environment, centered on Christ. This is very important to us coming from the Lutheran denomination and 13 years in the Lutheran School. The teachers, faculty, staff, and students made us feel welcome and accepted as part of the family from day one!”

-David and Tara Bentley

“Central Catholic High School has been a part of our family for generations. We feel strongly that CCHS is an exceptional place for our children in many ways. First and foremost, the spiritual formation they are receiving or have received will be with them for their entire lives. Second, the strongest academic program in the area meets the needs of all CCHS students. Additionally, with abundant service opportunities and extracurricular activities, the whole person is encouraged to grow and develop into a contributing member of society. The faculty and staff at Central Catholic High School guide that growth every step of the way, helping our children reach their full potential.”

-John and Kathy Wieland

“When it came time to decide if our oldest child should attend Central Catholic High School, our family looked closely at the cost and the benefits of attending. After much deliberation, we decided it was well worth it and cut costs in other areas of our household. Five years later, our oldest has graduated and our second child is a senior. Our family feels strongly that it was money very well spent. The environment is supportive as children grow into adulthood, with an emphasis on strong academics as well as spiritual and personal growth. CCHS truly develops and enriches its students' lives. We couldn't have invested better.”

-Chris and Charlene Homan
